

The complete range of **CASTING** machinery & equipment for all precious and non-precious metal casting. Technology, training and service support provided.

Casting machinery for BRASS, BRONZE, SILVER, GOLD

Melters

High quality Italian made medium frequency induction melters.

1300C Max temp (option 1400 C)
Pulse mixing, quick melting

	Au/999	Ag	
BETA 2	-2.5 kg	1.3 kg	3.5 kw, 1 ph
BETA 3	-4.0 kg	2.0 kg	4.5 kw 3 ph

	Au/999	Ag	
BETA 5	- 6.kg	3.2 kg	5.5 kw, 3 ph
BETA 10	-12 kg	6.4 kg	10 kw, 3 ph
BETA 12	-14 kg	7.5 kg	12 kw, 3 ph

High quality US made casting machinery, from tabletop J2r to automatic induction machines, JzP and Flowlogic

J2r resistance Vacuum casting machine
- Tabletop
- 722 g Silver
- 904 g Gold

Max temp 1200C - 1.5 Kw, single phase
Max flask - 4 x 9" perforated

Vacuum casting machines

JzP Automatic Induction vacuum-casting machine with cooler/stand
- 1,151 g Silver
- 1,439 g Gold

Max temp 1510C - 5 kw, single phase
Max flask - 5 x 9" perforated

Graining tank system supplied

FLOWLOGIC 510 & 515 Induction casting machines with cooler RC10
- 1,716 g Silver
- 2,145 g 14 k Gold

Max temp 1550C - 10 & 15 kw, 3 phase
Max flask - 6 x 12" perforated

Graining tank system supplied

Casting machinery for PLATINUM, PALLADIUM

Italian made Vacuum melting, pressure casting machine for platinum, palladium, gold and silver.

Capable of melting up to 2100C.

"PressoVac" Vacuum Pressure casting machine - Tabletop
- 180 g Platinum
- 100 g Stainless steel
- 150 g Silver
- 150 g Gold

Max temp 2100C - 3 kw, single phase
Max flask - 90 X 90 mm

Vacuum Pressure casting machines

"PressoVac MAX" Vacuum Pressure casting machine - Tabletop
- 350 g Platinum
- 200 g Stainless steel
- 500 g Silver
- 800 g Gold

Max temp 2100C - 4 Kw, single phase
Max flask - 100 x 150 mm

Unification of Technology

Yoshida Cast

Top quality Japanese Pressure casting machine with mold rotation for platinum, palladium, gold and silver.

Capable of melting up to 2100C.

"GAPMAN" Pressure casting machine with flask rotation - Tabletop
- 70 g Platinum
- 39 g Stainless steel
- 100 g Silver
- 100 g Gold

Max temp 2100C - 2.5 kw, single phase
Max flask - 76 x 70 mm

"YGP 5AE" Pressure casting machine with flask rotation
- 200 g Platinum
- 110 g Stainless steel
- 250 g Silver
- 250 g Gold

Max temp 2100C - 5 kw, 3 phase
Max flask - 90 x 90 mm

Casting machinery for WHITE METALS, PEWTER

Italian made spin casting machinery and complete casting systems including silicone rubber for casting white metals and pewter.

Complete technology provided

C300 Spin casting machine

Complete technology

- Mould frames and silicone rubbers
- Mould Vulcanization
- Automatic or gas furnaces
- Centrifugal casting machines
- Semi automatic transfer machines
- Accessories

- Mould diamters: 300, 400, 500, 700 mm

C400 Spin casting machine
