CERTUS

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name/designation Prestige Magna Vest PT Investment Powder

Unique Formula Identifier UFI: 5YP0-W0D4-A001-D23V

Hazard components

Cristobalite, Quartz (SiO₂)

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture

Making Mold for casting non-ferrous metals for jewelry mold block technology and industrial products.

Uses advised against

There are no uses advised against.

1.3 Details of the supplier of the safety data sheet

Supplier

CERTUS ALÇI VE DÖKÜM TEKNOLOJİ SAN. A.Ş.
Muratpaşa Mahallesi Siteler Caddesi no.14
TR-34040 Bayrampaşa/İstanbul
Telephone +90 (212) 674 81 47
Telefax +90 (212) 674 81 49

E-mail (competent person):
chris@certus-int.com

1.4 Emergency telephone number

Company (Emergency) +90 (212) 674 81 47

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to
Regulation (EC) No 1272/2008
[CLP]

STOT RE 1, H372

Hazard statements for health hazards

H372 Causes damage to organs (lung) through prolonged or repeated exposure (inhalation).

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 [CLP]

Hazard components

Cristobalite, Quartz (SiO₂)

Hazard pictograms

GHS08

Signal word

Danger

CERTUS

Hazard statements

H372 Causes damage to organs (lung) through prolonged or repeated exposure (inhalation).

Precautionary statements

P260 Do not breathe dust.
P284 Wear respiratory protection.
P314 Get medical advice/attention if you feel unwell.
P501 Dispose of contents/container in accordance with local regulations.

Additional information

Airborne respirable crystalline silica may be generated during the handling and use of the product. Prolonged and/or massive inhalation of respirable crystalline silica dust may cause fibrosis, commonly referred to as Silicosis. Principal systems of Silicosis are cough and breathlessness. Occupational exposure to respirable crystalline silica dust should be monitored and controlled.

2.3 Other hazards

Adverse human health effects and symptoms

The mixture does not contain substances $\geq 0.1\%$ of substances that have endocrine disrupting properties according to Regulation (EC) No. 1907/2006, Article 59(1) or Regulation (EU) 2017/2100 or Regulation (EU) 2018/605.

Adverse environmental effects

The mixture does not contain substances $\geq 0.1\%$ of substances that have endocrine disrupting properties according to Regulation (EC) No. 1907/2006, Article 59(1) or Regulation (EU) 2017/2100 or Regulation (EU) 2018/605.

Results of PBT and vPvB assessment

This substance does not meet the PBT/vPvB criteria of REACH, annex XIII.

SECTION 3: Composition / information on ingredients

3.1 Substances

not applicable

3.2 Mixtures

Hazardous ingredients

CAS No	EC No	Index No	Substance name	Concentration	Classification according to Regulation (EC) No 1272/2008 [CLP]	SCL/ M/ ATE
14464-46-1	238-455-4		Cristobalite	70 - 90 %	STOT RE 1; H372	
14808-60-7	238-878-4		Quartz (SiO ₂)	10 - 30 %	STOT RE 1; H372	
7722-76-1	231-764-5		Monoammonium phosphate	< 10 %		
1309-48-4	215-171-9		Magnesium Oxide	> 4 %		

SECTION 4: First aid measures

4.1 Description of first aid measures

General information

When in doubt or if symptoms are observed, get medical advice.

Following inhalation

Remove person to fresh air and keep comfortable for breathing.
In case of dyspnea give oxygen.
If unconscious but breathing normally, place in recovery position and seek medical advice.
If not breathing, give artificial respiration.
In the event of symptoms refer for medical treatment.

Version 1.0 (en)

CERTUS

Following skin contact

Take off contaminated clothing and wash it before reuse.
In case of contact with skin, rinse with soap and water.
In case of skin irritation, consult a physician.

After eye contact

Remove contact lens.
In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart.
In the event of persistent symptoms receive medical treatment.

Following ingestion

Rinse mouth thoroughly with water.
Do not induce vomiting without medical advice.
Never give anything by mouth to an unconscious person or a person with cramps.
Maintain an open airway.
Consult a doctor.

Self-protection of the first aider

First aider: Pay attention to self-protection!

4.2 Most important symptoms and effects, both acute and delayed

Symptoms

Eye irritation
Skin irritation

4.3 Indication of any immediate medical attention and special treatment needed

Notes for the doctor

Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

No specific extinguishing media is needed.
Co-ordinate fire-fighting measures to the fire surroundings.

Unsuitable extinguishing media

None known.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products

Product is not inflammable
In case of fire, dangerous combustion gases and vapours may be generated.

5.3 Advice for firefighters

Special protective equipment for firefighters

Cool endangered containers with water spray and possibly remove them from fire site.
Keep people away and stay on the windward side.
In case of fire: Wear self-contained breathing apparatus.

Additional information

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.
Dispose of contaminated extinguishant water according to official regulations.

CERTUS

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Avoid skin and eye contact.
Do not breathe dust.
Avoid dust formation.
Wear protective equipment (see section 8).
Keep away unprotected persons.
Evacuate the accident area.

For emergency responders

Keep people away and stay on the upwind side.
Personal protection equipment

6.2 Environmental precautions

Do not allow to enter into surface water or drains.
Inform competent authorities in case of leakage to sewage system/surface water/ground water.

6.3 Methods and material for containment and cleaning up

For containment

If there is a risk of entry into the sewerage system, erect barriers and/or cover the sewerage system.

For cleaning up

Take up mechanically.
Avoid dust formation.
After taking up the material dispose according to regulation.

6.4 Reference to other sections

Emergency telephone number: see section 1
Safe handling: see section 7
Personal protection equipment: see section 8
Disposal: see section 13

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Protective measures

Avoid skin and eye contact
Avoid dust formation.
Provide for appropriate ventilation/aspiration at the work station.
The danger areas must be delimited and identified using relevant warning and safety signs.

Advices on general occupational hygiene

Please observe work hygiene regulations.
Wash hands before breaks and after work.
Take off contaminated clothing and wash it before reuse.
When using do not eat, drink, smoke.
Keep away from food and drink.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Keep container tightly closed in a cool, well-ventilated place.
Keep/Store only in original container.

Prestige Magna Vest PT Investment Powder

Print date 14.04.2026
Revision date 14.04.2026
Version 1.0 (en)

CERTUS**Materials to avoid**

none

Further information on storage conditions

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Keep away from food, drink and animal feedingstuffs.
Follow the instructions on the label.

7.3 Specific end use(s)**Recommendation**

See section 1.2

SECTION 8: Exposure controls/personal protection**8.1 Control parameters****Occupational exposure limit values**

CAS No	EC No	Substance name	occupational exposure limit value
1309-48-4		Magnesium oxide	4 (1) 5 (2) 10 (3) [mg/m ³] (1) Respirable fraction (2) Fume (3) Inhalable fraction (4) 15 minutes reference period (IE)
1309-48-4		Magnesium oxide	10 inhalable aerosol 4 respirable aerosol [mg/m ³] (UK)

8.2 Exposure controls**Appropriate engineering controls****Remark**

Technical measures and the application of suitable work processes have priority over personal protection equipment.

Technical measures to prevent exposure

Sufficient ventilation and exhaustion.

Personal protection equipment**Eye/face protection**

In case of dust formation it is recommended to wear protective goggles.
Safety spectacles (EN 166)

Hand protection

Appropriate protection (e.g. gloves, barrier cream) is recommended for employees who suffer from dermatitis or sensitive skin.

Glove material specification [make/type, thickness, permeation time/wearing time, wetting resistance]: nitrile rubber, >0,11 mm, > 480 min.

The selected protective gloves must be in compliance with the specifications of EU Directive 89/686/EEC and the resultant standard EN 374.

The exact breakthrough time of the glove material is to be inquired from the protection glove manufacturer and must be strictly adhered to.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

CERTUS

Body protection:

Protective clothing shall be choose with respect to the function/activity and the possible exposure.
EN ISO 13982

Respiratory protection

Respiratory protection necessary at:
exceeding exposure limit values
insufficient ventilation
Recommended filter type:
FFP3 (EN 149)
In case of prolonged exposure:
Ventilator filtering device (EN 147)

Environmental exposure controls

Remark

Avoid creating dusty conditions and prevent windblown dust and dust emissions.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state

solid
Powder

Colour

white

Odour

odourless

Safety relevant basis data

	Value	Method	Source, Remark
Odour threshold:	not determined		
Melting point/freezing point	not determined		
Boiling point or initial boiling point and boiling range	not determined		
flammability			Not flammable
Lower and upper explosion limit	not determined		
Flash point	not determined		
Auto-ignition temperature	not determined		
Decomposition temperature	not determined		
pH	8- 9		
Viscosity	not determined		
Solubility(ies)	Water solubility		insoluble
Partition coefficient n-octanol/water (log value)	not determined		
Vapour pressure	not determined		
Density and/or relative density	not determined		
Relative vapour density			not relevant
particle characteristics	not determined

CERTUS**9.2 Other information****Information with regard to physical hazard classes****Oxidising solids****Safety characteristics**

	Value	Method, Result	Source, Remark
			not applicable

Other safety characteristics

	Value	Method	Source, Remark
Explosive properties			not explosive
Oxidising properties			not oxidizing

SECTION 10: Stability and reactivity**10.1 Reactivity**

The product is non-reactive under the recommended storage, use and temperature conditions.

10.2 Chemical stability

The product is chemically stable under recommended conditions of storage, use and temperature.

10.3 Possibility of hazardous reactions

No hazardous reaction when handled and stored according to provisions.

10.4 Conditions to avoid

Avoid dust accumulation.

10.5 Incompatible materials

None if used as intended.

10.6 Hazardous decomposition products

No risk of production of decomposition products when appropriately handled and stored.

SECTION 11: Toxicological information**11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008****Acute toxicity****Animal data**

	Effective dose	Method, Evaluation	Source, Remark
Acute oral toxicity	ATEmix > 2000 mg/kg		
Acute dermal toxicity	ATEmix > 2000 mg/kg		
Acute inhalation toxicity	Acute inhalation toxicity (gas) ATEmix > 5 mg/L		

Assessment/classification

Based on available data, the classification criteria are not met.

Skin corrosion/irritation**Assessment/classification**

Based on available data, the classification criteria are not met.

Irritation to respiratory tract

Assessment/classification

Based on available data, the classification criteria are not met.

Narcotic effects

Assessment/classification

Based on available data, the classification criteria are not met.

STOT-repeated exposure

Practical experience/human evidence

Long-term inhalation of quartz dust can cause silicosis. There is sufficient evidence that people suffering from silicosis have an increased risk of developing lung cancer.

Assessment/classification

Causes damage to organs (lung) through prolonged or repeated exposure (inhalation).

Aspiration hazard

Assessment/classification

Based on available data, the classification criteria are not met.
